

## NordBau 2023 - Exhibition Content and Shows

### Forum Hall 1

#### Consultation and Associations

- **Meeting point „Digital Construction Site“:** Networking of digitally supported construction machinery and the linking of „Devices - Building Site - Construction Machinery Simulation Tools“ (VDBUM)
- **FORUM Advising – Guiding – Supporting**  
Central advisory booth for all questions regarding house building - building smartly and financing - healthy construction materials, advice on cost-effective energy use in buildings, state initiative heat protection, meeting point advisory scout, ARGE for contemporary building
- **Meeting Point of the Road Construction Authority and Engineers**  
Current information and developments regarding road construction projects
- **20. North German sewer rehabilitation days**  
Seminars and accompanying exhibition

### Hall 1

Structural engineering, expansion, tiles, windows, stairs, sun protection, stoves, whirl pools, safety, formworks, fences, digital instruments, IT in construction, 3D-scan, 3D-printer and 3D-glasses, digital hardware for architects and tradesmen, software solutions, communication and logistics

- **Mutual Meeting Point**  
“Teaching, research and student exchange“

**Initiative Construction** with Architekten- und Ingenieurkammer SH (Schleswig-Holstein Chamber of Architects and Engineers), TH Lübeck, FH Kiel and BKI

„**Network: Recycling in building construction and civil engineering**“  
Organised and coordinated by TH Lübeck with partners and associations

**Research pavilion** of the Technical University of Applied Sciences Lübeck

- **Materials Testing Institute Schleswig-Holstein**  
Mineral building materials in the field of vision for builders, architects and engineers
- **Education and Training**  
**Thursday, 7.9. - Fascination building jobs - nordjob-Bau**  
Recruitment of young talents for the construction professions

### Trade fair restaurant Hall 2

### Hall 3

Building construction, finishing, construction chemicals, glass, insulation, tile profiles

### Hall 4

Start-up Stage „New companies meet established Industry Player“

- **Gardening and landscaping**  
Presentation on sponge-city solution and climate regulation
- **Commercial vehicles for the skilled trades**

## NordBau 2023 - Exhibition Content and Shows

### Hall 5

Tools & equipment, fastening technology, building profiles, workwear, roof products, roof tiles, building materials, renovation, building and energy consulting, insulation materials, windows, dormers, formwork, scaffolding

### Hall 6

- **Special show „Water ... & build“: heavy rain - flood protection - water supply - environment**  
Dike construction models, coastal protection and heavy rain simulations, drinking water and its quality, road drainage and water storage for trees, near-natural hydraulic engineering, rainwater retention systems and mobile flood protection, water management for agriculture

### Hall 7

- **Advisory stand for homeowners on energy generation and saving**  
Schleswig-Holstein Consumer Center and Haus & Grund Schleswig-Holstein

Heating, air conditioning, energy supply, pellet heating, heat pump technology, solar technology, home technology, wallbox, tiled stoves & fireplaces, terrace roofing

### Hall 8

House building, building elements, windows, tiles, doors, stairs, floors, kitchens, fences, building products, facade elements, fastening technology, security technology, terrace roofing, sun protection, whirlpools, tiles

- **Meeting point Denmark: practical & effective**  
Danish joint stand on innovative products and services under the umbrella of the Royal Danish Embassy Berlin and the Royal Danish Consulate General Hamburg with Dansk Industri - meeting point and information for Danish visitors

- **Annual performance competition of painters and varnishers**

### Outdoor area SOUTH

#### Presentation commercial vehicles construction

Commercial vehicles construction, trucks, equipment, body, trailers, tippers, crane technology, construction equipment, scaffolding, conservatories, carports, garages, heating, wood in the garden

### Outdoor area WEST

#### Municipal and Environmental Technology Practice Forum

Machinery, equipment, attachments and service, machines for outdoor and garden design, power tools, construction machinery, utility vehicles, trailers, trailer cranes

### Outdoor area NORTH

- Construction machinery, construction equipment, attachments for building construction, civil engineering, road construction, recycling, processing technology, compaction technology, crane technology, forklifts, commercial vehicles, scaffolding, laser and surveying technology, leveling equipment, attachments, construction site equipment, formwork

- Demonstration area of construction machinery and equipment

This overview represents a rough orientation with regard to the product groups. A complete overview of services and construction products can be found in the exhibitor list at [www.nordbau.de](http://www.nordbau.de)

## NordBau Neumünster trade fair Northern Europe´s compact construction trade fair

NordBau is one of the most important trade fairs for construction and municipal technology in Northern Europe. Since 1956 it has offered trade visitors as well as private and public builders a wide range of construction specific information and has promoted communication and synergy effects. The associations of the building industry accompany NordBau with specialist conferences and contacts. Seminars and training courses offer forums for innovations, for discussions and contacts. NordBau thus creates a basis for impulses and decisions, it informs and connects.

## Platform for structural and civil engineering, construction equipment and machinery, municipal technology, building materials, construction elements and energy technology

- approx. 600 exhibitors from 15 countries
- approx. 60.000 visitors per year
- approx. 69.000 m<sup>2</sup> outdoor area
- approx. 20.000 m<sup>2</sup> of hall space with conference rooms
- Accompanying technical programme with around 50 conferences

## Exhibitor and visitor structure

- architects and planners
- civil engineers
- private and public builders
- craftsmen
- garden designers and landscapers
- small and medium-sized construction companies
- building authorities, representatives and employees of cities and municipalities
- representatives of industry, chambers and associations
- property developers and housing companies
- construction and ancillary construction companies
- machine operators

For a detailed analysis of the visitors structure as well as the complete list of exhibitors please visit our homepage [www.nordbau.de](http://www.nordbau.de).

## Transport connections to the NordBau trade fair and organisational information

### Directions

via the A7 motorway  
exit Neumünster Nord

### Parking spaces

are located at the exhibition centre, a Park & Ride service is available, please follow the signs.

### By rail

ICE railway station Neumünster

### City bus

Connection directly to the exhibition grounds, bus route 5

### By airplane

Hamburg airport with bus shuttle „Kielius“ directly to and from the exhibition centre. Kiel airfield, Neumünster airfield

### Opening Hours

Wed, to Sun. 9 a.m. - 6 p.m.

Online-Tickets on [www.nordbau.de](http://www.nordbau.de)

### Entrance Fees

Day ticket	12,00 Euro
Reduced entrance fee for disabled persons (with disability card B - accompanying person free of charge)	9,00 Euro
After-Work ticket from 3 p.m. (Mi-Fr)	6,00 Euro
Ticket for all days	20,00 Euro
Pupils & Students	5,00 Euro

### Child care „Children build their house“

daily from 10 a.m. to 6 p.m.  
opposite the fair information desk in the foyer of Hall 1

## Exhibitions – Themes – Congress program – Special show

- **Special show:**  
„Water... & build“  
heavy rain - flood protection - water supply - environment
- **Information and advice stand:**  
**Generation and saving of energy**  
for homeowners, builders and interested buyers
- **Congress program** with around 55 events

Innovations and inspirations  
at the 68th NordBau Neumünster

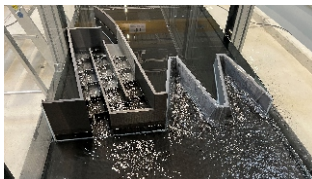

Fairground Holstenhallen  
**06. to 10. September 2023**  
**Wednesday to Sunday – 09.00-18.00 h**

Here we talk to each other

## Water... & build

heavy rain - floor protection - water supply - environment

With a special show in Hall 6 the topic „Water... & build: heavy rain - flood protection - water supply - environment“ is a key focus this year. This topic was developed and designed together with a number of committed co-

initiators. These include universities such as Helmut Schmidt University in Hamburg with its hydraulic engineering laboratory, Kiel University of Applied Sciences, Department of Hydraulic Engineering, the Christian Albrechts University of Kiel, the implementing authorities of the ministries, the GaLaBau professional association, the worldwide operating company Hamburg Wasser as well as industry partners. Together they present solutions, ideas, models, scientific research, products already in use or under development, and much more.

Water, as a precious commodity in dry times, but also as a danger during heavy rainfall events - by now, everyone associates individual experiences with it. This makes it all the more important to assess the risks correctly, to minimize the effects, and to exploit the opportunities through intelligent management.

## Information & advice stand: Energy generation and saving

Inform yourself at the NordBau at the Schleswig-Holstein consumer advice center and Haus & Grund's central information and advice stand. In the middle of Hall 7 between manufacturers and service providers of heating systems, heat pumps, solar and energy

technology the competent contact persons offer individual consultations. In addition, there are daily lectures on the specifications for heat supply with the required share of renewable energy in new and existing buildings.

Additional advice will be available in the Forum in Hall 1 from the Arbeitsgemeinschaft für zeitgemäßes Bauen (working group for contemporary building) and the Investitionsbank Schleswig-Holstein.

## Start-Up Stage

New companies meet established industry players

At a joint stand in Hall 4, the Start-up Stage 2023; a format which has been initiated by LECTURA GmbH with the support of the Bundesverband digitales Bauwesen (Federal As-sociation of Digital Construction) and is intended to bring together young companies with the established industry.

The approach is a year-round presence on different channels and is intended to „build bridges“ between start-up companies and the traditional construction industry.

True to the motto „New companies meet established industry players“ the Start-Up stage will feature a series of short presentations in which the various products and services will be presented.

## Central platform for research, teaching & Student Exchange

On a 400 sqm area a common platform for teaching, research and young talent for architects and engineers will again be located with a research pavilion.

In Hall 1, there will be presentations by, among others, the Initiative Bauwesen, a community consisting of the Schleswig-Holstein Chamber of Architects and Engineers, the Technical University of Applied Sciences Lübeck, Kiel University of Applied Sciences and the BKI, as well as the Forum Kreislaufwirtschaft Bau, the Materialprüfanstalt Schleswig-Holstein and the FH Westküste.

## Construction machinery and commercial vehicles construction

A first-class range of construction machinery for building construction, construction equipment, commercial and service providers can be found in the North outdoor area. The numerous exhibitors focus on

different focal points: from road construction and recycling to processing technology, from attachments for building construction and crane technology to side equipment. But also further developments, and trends in the fields of municipal technology and tools, e-mobility and energy will be presented.

## NordBau 2023 - Congress- and Specialised Program

### Wednesday, 6<sup>th</sup> September

- 11.00 h Official opening of NordBau by Claus Ruhe Madsen, Minister for Economics, Transport, Labour, Technology and Tourism in the state parliament Schleswig-Holstein
- 08.30 h Technical seminar of the VDBUM Association of the Construction Industry, Environmental and Mechanical Engineering
- 09.00 h Technical Committee Meeting Road Construction and Mastic Asphalt
- 09.00 h Fire Safety Day
- 09.30 h 20th North German Sewer Rehabilitation Days
- 09.30 h Building Law Day
- 09.30 h Professional excursion for agricultural service specialists
- 09.30 h Meeting of the Economic Committee of the state parliament Schleswig-Holstein
- 10.00 h Practical Forum on Municipal and Environmental Technology
- 12.00 h Federation of German Master Builder - federal board meeting
- 13.30 h IB.SH Forum
- 14.00 h Meeting of the Building, Planning and Environment Committee of the Schleswig-Holstein Association of Municipalities
- 14.00 h Practical seminar for drivers of commercial vehicles by police and DEULA
- 14.30 h Symposium of the Association of German Concrete Engineers
- 15.00 h Day of Road Construction and Traffic Engineers - VSVI

### Thursday, 7<sup>th</sup> September

- 08.30 h Technical seminar of the VDBUM Association of the Construction Industry, Environmental and Mechanical Engineering
- 09.00 h Fascination of construction professions - nordjob Bau
- 09.00 h Federation of German Master Builder - federal board meeting
- 09.30 h Wood Construction Day
- 09.30 h 20th North German Sewer Rehabilitation Days
- 09.30 h Conference of the state specialist group for solid construction
- 09.30 h Conference of Waste Management Association North
- 10.00 h „ForumZukunft Bauen“ Information Center Concrete
- 10.00 h Annual conference of treasurers in Schleswig-Holstein

## NordBau 2023 - Congress- and Specialised Program

- 10.00 h Practical Forum on Municipal and Environmental Technology
- 10.00 h Exchange of opinions Road Construction and Traffic Engineers - VSVI
- 10.00 h Association of German Master Builders North
- 14.00 h Expert Forum Innovative Insulation Materials
- 14.00 h Symposium Burglary protection in the north
- 14.00 h Practical seminar for drivers of commercial vehicles by police and DEULA
- 14.30 h 47th Day of the Building Materials Industry
- 16.00 h Meeting of the Young Entrepreneurs Working Group Construction Industry Association Hamburg Schleswig-Holstein
- 17.00 h BIM Cluster Schleswig-Holstein
- 17.00 h „Sport Infrastructure and Inclusion“ Schleswig-Holstein State Sports Association
- 18.30 h Lounge evening for architects and engineers

### Friday, 8<sup>th</sup> September

- 09.30 h Contracting practice in construction, GMSH
- 09.30 h Occupational health and safety in transition, BG Bau
- 09.30 h Day of the Minister of Construction Schleswig-Holstein
- 10.00 h zunftschwester impulse, RM Rudolf Müller Medien
- 12.00 h Practical seminar Demolition Association North
- 14.00 h Conference of the State Specialist Group for Tiles and Natural Stones
- 14.00 h Practical seminar for drivers of commercial vehicles by police and DEULA
- 15.30 h Ceremony for the 2023 bachelors of the Schleswig-Holstein roofing trade
- 17.00 h Ceremony for the 2023 bachelors of the Schleswig-Holstein chimney sweep trade
- 18.00 h Master roofer evening

### Saturday, 9<sup>th</sup> September

- 09.30 h „Energy supply for sports infrastructure“ Schleswig-Holstein State Sports Association
- 10.00 h Alumni meeting of the real estate businessmen, vocational school of the Ostholstein district
- 11.00 h Meeting Chamber of Crafts Flensburg „MeisterClub“
- 13.00 h Award ceremony annual performance competition painters and varnishers Schleswig-Holstein
- 14.00 h LBS building society Schleswig-Holstein Hamburg
- 16.00 h General Meeting of the Electrical Association and Gas Association from Schleswig-Holstein
