

NordBau 2024 - Exhibiton Content and Shows

Forum Hall 1

Consulting and Associations

- **VDBUM - Verband der Baubranche, Umwelt- und Maschinentechnik:** „Man & construction machinery technology in digital construction process“ with keynote speeches and training simulator
- **FORUM Advising – Guiding – Supporting**
Central advisory booth for all questions regarding house building - building smartly and financing - healthy construction materials, advice on cost-effective energy use in buildings, State initiative heat protection, meeting point advisory scout, Arbeitsgemeinschaft für zeitgemäßes Bauen (Working group for contemporary construction)
- **Meeting point of the Road Construction Authority and Engineers**
Current information and developments regarding road construction projects
- **21st. North German sewer rehabilitation days**
Seminars and accompanying exhibition

Hall 1

Structural engineering, expansion, tiles, windows, sun protection, safety, formworks, digital instruments, IT in construction, 3D-scan, 3D-printers, digital hardware for architects and tradesmen, software solutions, communication and logistics

- **Mutual Meeting Point “Teaching, research and student exchange“**
Initiative Construction with Architekten- und Ingenieurkammer SH (Chambers of Schleswig-Holstein Chamber of Architects and Engineers), TH Lübeck, FH Westküste und BKI
„Network: Recycling in building construction and civil engineering“
Organised and coordinated by Lübeck University of Technology with partners and associations
Smart Construction Project of the Lübeck University of Technology
- **Material Testing Institute Schleswig-Holstein**
Mineral building materials in focus for builders, architects and engineers
- **Recruiting skilled labour for the construction industry**
Companies in the construction industry present themselves as employers of recruiting, skilled labour, career changers
- **Education and Training - Thursday, September 5 - Fascination building jobs - nordjob-Bau**
Recruitment of young talents for the construction professions

Hall 3

- **Interior and Decoration**
Room layout, room examples and furnishings
- ideas for living and working

- Trade fair restaurant

Hall 4

Insulation, construction chemicals, fences, terraces, tools

NordBau 2024 - Exhibiton Content and Shows

Hall 5

Tools & equipment, fastening technology, building profiles, workwear, roofing products, roof tiles, building materials, renovation, building advice, insulation materials, windows, dormers, fromwork, scaffolding

Hall 6

- **Construction machinery and equipment**
Suppliers for construction machinery and equipment

Hall 7

- **„Insulate and heat your home“ advice stand**
Schleswig-Holstein Consumer Center and Haus & Grund Schleswig-Holstein

Heating, air conditioning, energy supply, pellet heating, heat pump technology, solar technology, home technology, wallbox, tiled stoves & fireplaces, terrace roofing

Hall 8

House building. building elements, windows, tiles, doors, stairs, floors, kitchens, fences, building products, facade elements, fastening technology, security technology, terrace roofing, sun protection, whirlpools, tiles, tiles accessories, construction chemicals

- **Meeting point Denmark: practical & effective**
Danish joint stand on innovative building products and services under the umbrella of the Royal Danish Embassy Berlin and the Royal Danish Consulate General Hamburg with Dansk Industry - meeting point and information for Danish visitors
- **Annual performance competition of painters and varnishers**

Outdoor area SOUTH

Presentation commercial vehicles construction

Commercial vehicles construction, trucks, equipment, superstructure, trailers, tippers, crane technology, construction equipment, scaffolding, conservatories, carports, garages, heating, wood in the garden

Outdoor area WEST

Municipal and Environmental Technology Practice Forum

Machinery, equipment, attachments and service, machines for outdoor and garden design, power tools, construction machinery, utility vehicles, trailers, trailer cranes

Outdoor area NORTH

Demo area for Construction machinery and construction equipment

attachments for building, construction, civil engineering, road construction, recycling, processing technology, compaction technology, crane technology, forklifts, commercial vehicles, scaffolding, laser and surveying technology, leveling equipment, attachments, construction site equipment, formwork

This overview represents a rough orientation with regard to the product groups. For a complete overview of services and construction products can be found in the exhibitor list at www.nordbau.de

NordBau Neumünster trade fair Northern Europe´s compact construction trade fair

NordBau is one of the most important trade fairs for construction and municipal technology in Northern Europe. Since 1956 it has offered trade visitors as well as private and public builders a wide range of construction-specific information and has promoted communication and synergy effects. The associations of the building industry accompany NordBau with specialist conferences and congresses. Seminars and training courses offer forums for innovaions, for duscussions and contracts. Nordbau thus creates a basis for impulses and decisions, it informs and connects.

Platform for structural and civil engineering, construction equipment and machinery, municipal technology, building materials, construction elements and energy technology

- approx. 600 exhibitors from 15 countries
- approx.. 69.000 m² outdoor area
- approx. 20.000 m² of hall space with conference rooms
- Accompanying technical programme with around 50 conferences and the CONBAU Nord - Northern European Building Congress on Housing and heat transition

Exhibitor and visitor structure

- architects and planners
- civil engineers
- private and public builders
- craftsmen
- garden designers and landscapers
- small and medium-sized construction companies
- Building authorities, representatives and employees of and municipalities
- representatives of industry, chambers and associations
- property developers and housing companies
- construction and ancillary construction companies
- machine operators

For a detailed analysis of the visitors structure as well as the complete list of exhibitors please visit our homepage www.nordbau.de.

Transport connections to the NordBau trade fair and organisational information

Directions

via the A/ motorway
Exit Neumünster Nord

Parking Spaces

are located at the exhibition centre,
a Park & Ride service is available,
Please follow the signs.

By rail

ICE railway station Neumünster

City bus

Connecting directly to the exhibition grounds,
bus route 5

By airplane

Hamburg airport with bus shuttle „Kielius“
directly to and from the exhibition centre. Kiel airfield, Neumünster airfield direkt zu und von der Messe. Flugplatz Kiel, Flugplatz Neumünster

Opening Hours

Wednesday to Sunday 9 a.m. - 5.00 p.m.

Online-Tickets on www.nordbau.de

Entrance Fees

Day ticket	12,00 Euro
Reduced entrance fee for disabled persons (with disability card B accompanying person free of charge)	9,00 Euro
After-Work ticket from 3 p.m. (Mi-Fr)	6,00 Euro
Ticket for all days	20,00 Euro
Pupils & Students	5,00 Euro
Trade fair scouts (registration in advance email)	35,00 Euro

Childcare by child protection organisation

daily from 10.00 a.m. to 5.00 p.m.
opposite the trade fair information desk in the foyer of Hall 1

Scan the QR code
and visit our ticket shop.

Nordeuropas Kompaktmesse des Bauens

Exhibitions – Themes – Congress program – Special show

- **CONBAU North**
The building congress in the north on housing construction and the heating transition
- **Consultancy stand**
Future-proof your home´s insulation and heating
- **Interior design and decoration**
Room layout, room examples and furnishings
- **Congress program**
with around 50 events

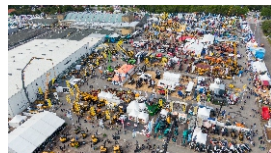

Innovations and inspirations
at the 69th NordBau Neumünster

Fairground Holstenhallen
4 to 8 September 2024
Wednesday to Sunday – 9.00 a.m. - 5.00 p.m.

Here we talk to each other

Construction machinery and commercial vehicles construction

A first-class range of construction machinery for building construction and civil engineering, construction equipment, commercial vehicles and service providers

can be found in the North Outdoor Exhibition Area and Hall 6. The numerous exhibitors will be focusing on a variety of areas, including road construction, recycling and processing technology, attachment tools for building construction, crane technology and construction site equipment. But also further developments, innovations and trends in the areas of municipal technology and tools, e-mobility and energy technology will be presented.

Advice stand: Your Home Future-Proof - Insulate and Heat Sustainably

Around three-quarters of heating systems in Germany still run on natural gas or heating oil. Changes to the Building Energy Act (GEG) will advance the heating transition in Germany. As of 1 January 2024, every newly installed heating system in a new

development area must use at least 65 % renewable energy. For existing buildings or new constructions outside of new development areas, there are transitional periods until the heating plans in the respective municipalities are finalised. In these cases, climate-friendly energy sources will become mandatory when replacing the heating system by the end of 2024 or 2027 at the latest. The Energy Transition and Climate Protection Act in Schleswig-Holstein (EWKG) requires that every newly installed heating system must be powered by 15 per cent renewable energy. Competent contact persons will offer individual consultations and daily impulse lectures at the stand of the Verbraucherzentrale Schleswig-Holstein and Haus & Grund in Hall 7. Manufacturers and service providers of heating systems, heat pumps, solar and energy technology are also located here.

Additional advice will be available in the Forum in Hall 1 from the Arbeitsgemeinschaft für zeitgemäßes Bauen (working group for contemporary building) and the Investitionsbank Schleswig-Holstein.

CONBAU Nord - The Construction Congress in the North on Housing and Heating Transition

Information exchange at the highest professional level is what the forward-looking CONBAU Nord Congress will offer for the first time this year on 4th and 5th September. The motto of the NordBau construction trade fair has always been „Here, people talk to each other!“ - so it makes sense to expand the dialogue and bring experts together to address the pressing construction topics of our time. The product diversity at the construction trade fair, especially in heating technology, impressively reflects the urgent issue of the heating transition. How efficient implementation can be achieved and how housing construction can benefit from it will be presented and discussed by 50 national and international experts in 15 sessions.

Research, Teaching & Student Exchange Common Meeting point in Hall 1

In Hall 1, there will once again be a common meeting point for teaching, research and student exchange for architects and engineers. The Lübeck University of Applied Sciences will showcase the Smart Construction project and together with other partners, present the network „Recycling in Structural and Civil Engineering.“

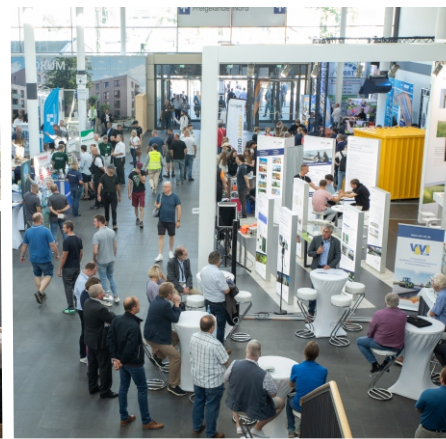

Additionally, amongst others, the Initiative Bauwesen, a collaboration of the Schleswig-Holstein Chamber of Architects and Engineers, Lübeck University of Applied Sciences, West Coast University of Applied Sciences and BKI, will be presenting themselves as well as the Forum for Curricular Economy in Construction, the Schleswig-Holstein Materials Testing Institute and Kiel University of Applied Sciences.

Interior Design and Decoration

Around 350 square metres, the special exhibition presents concepts for room layout, room examples and furnishings. Here you will find ideas for living and working environments, interior construction, furniture design and manufacturing, bespoke fitted furniture, colour consultancy and design for the perfect room ambience, as well as decorative elements. Planning and implementation for offices, practices, commercial and residential spaces are offered from a single source.

- Efficient working in a stylish ambience
- Creativity meets functionality
- The room, kitchen and bathroom of your dreams
- Challenges in your own home
- Designing holiday flats

NordBau 2024 - Congress- and Specialised Program

Wednesday, 4th September

- 10.00 Opening of CONBAU Nord - Northern European construction on housing construction and the heating transition
- 11.00 and opening of NordBau by Daniel Günther, Minister President of Schleswig-Holstein
- 08.00 Technical Committee Meeting Road Construction and Mastic Asphalt
- 08.30 VDBUM Academy
- 09.00 Site manager meeting of the company Hoth Tiefbau
- 09.15 Neumünster Fire Protection Day
- 09.30 21th North German Sewer Rehabilitation Days
- 09.30 Specialist Excursion for Agricultural Service Professionals
- 10.00 Practical Forum on Municipal and Environmental Technology
- 11.00 Meeting of the Economic Committee of the State Parliament of Schleswig-Holstein
- 14.00 Meeting of the Building, Planning and Environment Committee of the Schleswig-Holstein Association of Municipalities
- 14.30 Symposium of the Association of German Concrete Engineers
- 15.00 Day of road construction and traffic engineers
- 16.30 Board meeting of VSVI Schleswig-Holstein

Thursday, 5th September

- 08.30 VDBUM Academy
- 09.00 Fascination building jobs – nordjob Bau
- 09.00 Wood Construction Day
- 09.00 CONBAU Nord - Northern German Construction Congress on Housing and the Heating Transition Equipment Committee Construction Industry Association HH SH
- 09.30 21th Northern German Sewer Rehabilitation Days
- 09.30 Conference of the state specialist group for solid construction
- 09.30 Building supervision seminar
- 10.00 Forum Future Building
- 10.00 Practical Forum Municipal and Environmental Technology
- 10.00 Opinion Exchange for Road Construction and Traffic Engineers
- 12.30 Students meet the construction industry
- 14.00 Specialist event organised by Entsorgungsgemeinschaft Nord

NordBau 2024 - Congress- and Specialised Program

- 14.00 Symposium on burglary protection in the north
- 16.00 Meeting of the working group of young entrepreneurs of the Hamburg Schleswig-Holstein Construction Industry Association
- 17.00 Lounge Evening for Architects and Engineers

Friday, 6th September

- 09.30 Contract procedure in construction - GMSH
- 09.30 Occupational health and safety in transition
- 09.30 Day of the Minister of Construction Schleswig-Holstein
- 09.30 Association of German Master Builders Regional Associations North
- 10.00 48th Day of the Building Materials Industry
- 13.00 4th Seminar on demolition and renovation practice
- 15.30 Ceremony for the bachelor class of 2024 of the Schleswig-Holsteinische roofing trade
- 18.00 Master roofer evening

Saturday, 7th September

- 09.30 Schleswig-Holstein State Sport Association
- 10.00 Alumni meeting of the real estate professionals, vocational school of the Ostholstein district
- 10.00 19th Expert Forum on Innovative Insulation Materials
- 13.00 Award ceremony annual performance competition painters and varnishers Schleswig-Holstein
- 14.00 LBS building society Schleswig-Holstein-Hamburg
- 16.00 General Meeting of the Electrical association and gas community from Schleswig-Holstein
